

Case Study

Bringing visibility, accountability,
and control to field operations.

A SaaS-Based Web & Mobile Platform for managing distributed field WorkForce Pro using real-time location intelligence.

About The Project

It was designed to help organizations manage large, on-ground teams through a centralized, location-driven platform.

Employees

Clock in/out, execute tasks, report incidents.

Supervisors & Managers

Monitor live activity, approve workflows, ensure compliance.

Organizations

Gain transparency, accuracy, and operational control.

Shared Goal

Improve workforce visibility, compliance, and execution efficiency.

The screenshot displays the 'Incident Reports' dashboard. On the left is a navigation sidebar with options: Main, Dashboard, Workforce Mgmt, Operations, Locations, CAD System, Task Management, Patrol Management, Incident Reports (highlighted), Emergency Response, Communications Hub, BOLO Alerts, Live Map, Financial, and System Settings. The main content area features a search bar, filters for 'All Status' and 'All Severity', and a '+ Add Report' button. Below is a table with columns: Title, Description, Geofence, Type, Severity, Status, Assigned To, Reported By, Reported At, and Actions. The table contains three entries: 1. Vandalism at 'At the Gate number 2' (Low severity, Open status, assigned to Amelia Wright). 2. Vandalism at 'Vandalsim at this area' (Medium severity, Open status, assigned to Amelia Wright). 3. Traffic Accident at 'Traffic Accident at the phoenix millennial mall,Zo...' (High severity, Reported status, not assigned). The footer shows 'Showing 1-3 of 3 entries' and 'Rows per page: 10'.

The Challenge

Lack of Visibility

No real-time view of WorkForce Pro presence

Attendance Fraud

Manual or proxy attendance systems

Scattered Locations

Zones and geofences managed in silos

Unclear Hierarchies

Confusing approvals and ownership

Low Usability

Map-based workflows were hard to adopt

Missed Deadlines

No proactive alerts or monitoring

From Fragmented Field Operations To Centralized WorkForce Pro Control

The screenshot displays the WorkForce Pro Time Tracking interface. The top navigation bar includes a search field and a notification bell with a red '1' indicator. The left sidebar contains a menu with categories: Main (Dashboard), Workforce Mgmt (Employees, User Management, Scheduling, Time Tracking, Timesheets, Leave Management), Operations, Financial, System Settings, and Settings. The main content area is titled 'Time Tracking' and features a 'Location Overview' section with a dropdown menu set to 'All locations'. This section shows three employee cards: Amelia Wright (Security Guard, 41.32h, 3 entries), Emily Harris (Operator, 26.65h, 3 entries), and James Carter (Security Guard, -5.02h, 5 entries). Below this is a 'Currently Active (0)' section with a clock icon and the text 'No employees currently clocked in'. To the right is a 'Quick Clock In' section listing Gary Thompson (Guard), Emily Harris (Operator), and James Carter (Security Guard), each with a blue arrow button. The bottom section is 'Time Entries', which includes a search bar and a list of five completed entries for Amelia Wright, Emily Harris, and James Carter, each with a date range and location.
